IMPORTANT INFORMATION

Shipping

The cost of shipping is not included in the prices. Shipping start at \$9.99 depending on weight, destination, and whether you select standard or express (trackable) shipping.

Information Regarding Surfaces

If you are sending in your own item for engraving, please ensure that the surface not textured. If it is textured, it must have a large-enough smooth section to engrave what you'd like on to it. If you're not too sure, please send me a picture and I'll be happy to double check for you.

If you're purchasing something online, you can have it posted directly to me. If you have something in mind and would like me to source it, I can include the cost of the item in an invoice and purchase it on your behalf (a convenience fee will apply).
